

ACCESSIBILITY INFORMATION – WAWA EUROA EXPERIENCE

Getting There

The Euroa Arboretum is located 3km from the centre of Euroa. It is outdoors, with basic shelter and facilities available.

Car parking is available at two locations:

1. **Main Entrance of the Euroa Arboretum**, this is a 300m walk from the start of our wawa biik experience along a flat path.

From the welcome and information sign follow a board walk (recycled plastic material see image below) 10 metres before turning right along a path of compressed clay soil with an overlay of rocky gravel (maximum aggregate size is approximately 13-20mm).

Image caption: Mesh boardwalk surface leading to the grass and then the compressed clay path.

Option 2: Arrive at the entrance and take the road to the right (through the gate) and proceed to the pavilion carpark which is signposted. This pavilion is a picnic shelter and is located 10 metres from the start of the wawa biik experience. From here, the meeting point is accessed up a short concrete ramp at the entrance of the pavillion, across brick paving and over undulating rock (pictured).

Image caption: Image of surface from carpark to the picnic shelter – small incline with rocks, before reaching the concrete surface of the shelter. There are picnic tables and chairs at the shelter. The picnic tables are not accessible.

Toilets

There are toilet facilities available located adjacent to the picnic shelter. Access the women's via ramp, the men's (including a urinal) requires a step over a raised concrete edge but there is a way to access it from the other side which is flatter.

Image caption: entrance to the women's toilet is via a small concrete landing and the men's via a rough concrete landing

Measurements of the facilities are displayed below:

Women's

The width of the entrance is 820mm and requires a turn to the right to access the toilets. There are two toilet cubicles. The largest size, the doors swing outward with the door width of 560mm. The space beside toilet is 420mm and in front is 810mm. The toilet seat height is 420mm and there is a handrail. The basin is 810mm high and has a twist tap.

Photos

Image caption: Entrance at 820mm, toilet cubicle entry at 560mm and women's toilet with handrail.

Men's

The width of the entrance is 820mm and requires a turn to the left to access the toilets. To avoid the concrete step into the toilets please access the women's toilet.

There is a urinal and a toilet cubicle. The door is relatively heavy and swings outward with a door width of 820mm. The space beside toilet is 420mm and in front is 870mm. The toilet seat height 420m. There are no handrails. The basin is 810mm and has a twist tap.

Please note: If the men's toilet is more accessible for a woman in a wheelchair, we can assist in blocking it off for their use.

Paths/Access

All walking paths are relatively flat with a width of 1.5-2m. There is a mixture of surfaces from clay soil with an overlay of rock, moss and compact gravel. Maximum aggregate size of gravel is approximately 13-20mm. During wetter months, the ground can be slightly muddy or slippery with some

puddles. Care is required when traveling along these paths.

Mobility

Expect a short, non-strenuous stroll (maximum 1-hour) across uneven ground that is unpaved. This is outdoors so sun, wind or rain protection is recommended. All the terrain is flat but there are some small obstacles such as sticks, small rocks, puddles or compressed clay soils.

There is seating available at the picnic shelter but there is an approximately 1-hour period of standing.

Sound

The experience is generally quiet apart from the sounds of Country such as birds or frogs. The Euroa Arboretum is located close to the highway so sounds of cars and trucks can be heard at points. There may be music

played at a quiet level during the experience.

Service dogs are permitted within this experience. Water and shelter are available for service animals.

Allergies

During our ceremonies we utilise smoke to cleanse our spirit and land and ensure your safe passage on Country. Please notify us prior if eucalyptus smoke may cause an issue. As our experiences aim to engage all senses we will invite guests to touch and smell elements of Country such as plants.

Food: A morning tea of lemon myrtle cookies and wattleseed muffins and bush flavoured tea, is provided. Please notify us of any allergies upon booking.
